

MESSAGE FROM FOUNDER

Dr. K.H. Sancheti
Ph.D (Ortho), MS (Ortho), FRCS
Founder & Professor Emeritus

I have great pleasure in welcoming you to SIOR. The 2021 batch is very special. All of you will be doing the 3-year M.S.(Orthopaedics) course, which is the premier Post Graduate Qualification of the Medical Council of India in Orthopaedics. I assure you of the best education in theory and training in the practical aspects of Orthopaedics and Traumatology.

In order to become a good medical practitioner, one has to be a good human being first. It is my personal experience that a very simple person with sincerity, commitment, dedication and relentless efforts can work out wonders in life.

What I need from you is your time, dedication to work and sincerity to inculcate our culture and ethics. We have a work culture to start the day at 7:00 A.M. and we ensure that at the end of everyday, "VALUE ADDITION" has taken place in your medical knowledge & skills as also in your personality. Such "VALUE ADDITION" thus takes place throughout the course and we strive for continuous improvement every day. When you leave SIOR, we shall look at you with pride, as a competent medical professional entering the world brimming with confidence to deliver the benefits of your knowledge & skills to your patient and humanity at large.

I am sure you shall also be proud of being trained at SIOR.

Wishing you all the best.
