

‘SERVING PATIENTS IS SERVING GOD’

MESSAGE FROM CHAIRMAN

Dr. Parag Sancheti

FRCS (Ed), MS (ORTH), DNB (ORTH), MCh
(UK), Ph.D (Dundee, UK)

Chairman

Congratulations on joining Sancheti Institute for Orthopaedics & Rehabilitation (SIOR) for your Post Graduate MS Course. We appreciate that you have chosen to be an Orthopaedic surgeon and we feel happy that you have chosen SIOR as your preferred college for doing your Post Graduate studies.

Orthopaedics is a dynamic subject and I am sure you will enjoy your experience as an Orthopaedic resident in the forthcoming 3 years. Please remember that these 3 years are the basis of your foundation to be a knowledgeable and successful orthopaedic surgeon.

At Sancheti Institute, you will receive the best of academics, surgical experience and research. Sancheti Institute has a different and unique way of imparting resident training to the Post Graduate students. It is important that you imbibe this pattern at the earliest. This will make your 3 years of residency an enjoyable journey.

For education purposes, there will be daily morning and afternoon lectures and morning clinical meetings. Also there will be teaching in OPD, during rounds and during assisting surgeries. Additionally, we have a Surgical Skills Centre to give you hands on experience. From time to time you shall be attending CME's, Conferences and Webinars.

Also, as a part of your Research, you will have to complete your Dissertation (Thesis). We give a lot of importance to the Thesis and your progress for the same will be closely monitored. You will also have to complete the log book on daily basis and submit for checking on a regular basis.

With this handbook, we are making an effort to explain the rules and regulations during residency program which you shall strictly adhere to. Please remember that rules are not to intimidate you but to make you understand the culture and discipline we follow at SIOR and all this is with a single aim of better patient care. We advocate and practice “Serving Patients is Serving God”.

All I request from you is sincerity, hard work, perseverance, integrity and patient empathy. I am sure that you will excel in all these qualities not only during your residency program but also in your practice and become a successful orthopaedic surgeon.

*I take this opportunity to welcome you in Sancheti Family.
Wishing you all the best!*

‘रूग्णसेवा हीच ईश्वरसेवा’
