Investigation reports will be checked and verified in the Trio HMIS. Change in treatment planned based on investigation results needs to be mentioned in the patient file.
- 3. Fitness Physician & Anaesthetist**
Fitness given by the physician is to be checked by the resident and informed to the patient as well to the consultant.
Inform physician / anaesthetist / reference to outside consultant enter the reference in the HMIS along with the reason for the reference after every admission.
- 4. Documentation During Ward Round**
They will record detailed morning rounds as regards the condition of the patient and his progress (Clinical Notes & Orders). The morning notes and orders should be written at the bed side and not at the ward counter. They should also enter the consultant's findings.

Daily medication orders are to be written every morning and in capital letters only. Medication orders should follow below mentioned standards
 - Capital letters
 - Frequency of the drug
 - Dose of the drug
 - Route
 - Remarks (If any)patient file will be completed in all respects and submitted to the MRD on the same day when the patient is discharged.

'रूग्णसेवा हीच ईश्वरसेवा'

'SERVING PATIENTS IS SERVING GOD'

5. Dressing Wound Status

After every dressing the wound status is to be recorded in the notes (Progress Report) and shown to the consultant.

Preferably take a photo and send to the consultant.

Before performing any procedure information to be given to the patient and procedure form to be filled before dressing. All necessary Infection Control Protocols should be followed during dressing.

6. Medicine Dose

Daily drugs and the medicine dose given to be checked personally by the resident during morning rounds and prescription given accordingly in the MCI approved format only.

It is mandatory to know the dose/ adverse reaction / drugs interaction about every drug prescribe by you as are RMP according to MCI rules.

7. Discharge Card/ Summary

Discharge card/summary to be filled one day prior to discharge and consultant's sign should be taken. The medications on discharge should be discussed with the respective physicians if needed. Discharge summary should be ready before 10:00 am on the day of discharge. Patient should take appointment from the OPD secretary for his next scheduled visit as per the date given by the doctor. Probable discharges to be informed on appropriate whatsapp group.

All Parameters in the Discharge Card/Summary need be filled properly.

Diagnosis should be mentioned in the Discharge summary in the form of ICD code as well. The discharge summary must be explained by any one of the unit residents and the follow up date should be well explained to the patient. Confirmation of appointment for follow up at SIOR should be done.

8. Dress Code

All residents should always wear clean apron & shoes at any given time in the hospital campus especially whenever they are in the wards, OPD and emergency. No doctor should enter the hospital without apron & shoes.

9. No Medication over the telephone

Verbal and hand written orders will not be valid/ executed. No orders will be given to the nurse regarding medication over the telephone. The resident should personally come and write it on the case paper after which the nurse will execute the order. **(Telephonic order will not be executed as per NABH rules).**

10. Behavior

All the residents must be extremely careful about their behavior with patients and staff. Under no circumstances will the resident raise his voice at any patient or the staff, even if they are wrong. They should complain about the person / the incident to the administrator and the consultant in writing. Our culture is to treat every patient as our close relative. Caring approach will be the same as for our near and dear ones. You must realize that you are under constant CCTV surveillance in wards and every corner of the hospital.

'रूग्णसेवा हीच ईश्वरसेवा'

‘SERVING PATIENTS IS SERVING GOD’

11. Consent Form

Prior to taking a patient in OT/EOT the resident will ensure Pre-operative anesthetic fitness and consent form is duly signed.

All consents pertaining to treatment are to be personally taken by resident only.

The mandatory parameters should be mentioned in the surgery consent.

- Benefits of the surgery
- Risk involved in the surgery
- Alternates (If any)

Name of Consultant, Date, time and signature of the consultant should be taken on the consent form.

12. OT Etiquettes

Once the patient is inside OT, make sure no personal or any loose talks to be made. Mobile phones strictly not to be used inside OT.

Female patient catheterization and other such procedures should be done by sister or female residents. Also while doing primary for a female patient, ensure presence of female nurse or female OT assistant in OT.

Once surgery is done to accompany the patient to Recovery and hand over to the Recovery sister. Then complete all post operative notes, before scrubbing for the next case.

13. Blood Transfusion

If blood transfusion is ordered the resident on duty will ensure the correctness of the blood bottle, stick the counter foil on the case paper; enter the time of starting as well as completion of the B.T. Write necessary orders for any reaction to B.T. The blood will be checked by resident compulsorily in the ward itself. The resident will personally be present while starting the B.T. and monitor patient for 15 mins in the ward after the blood has been started to ensure no untoward reaction occurs. Blood transfusion consent should be taken before transfusion of the blood.

14. Signing of Certificates

The resident will not sign any reimbursement papers, insurance forms; neither will they issue any temporary/permanent disability certificates, any duty modification certificate unless told by the consultant. Instead they will direct the patient to the consultant / care manager. **Resident is not authorized to sign any certificate or legal document.**

17. Treatment of Staff Members

No residents will write any prescriptions/investigations for treatment of staff members. Refer them to staff OPD instant.

'रूग्णसेवा हीच ईश्वरसेवा'

‘SERVING PATIENTS IS SERVING GOD’

18. Post Op Round:

Resident should ensure that operated patients are seen by consultants before leaving the campus.

Documentation of round findings should be written in the patient file.

19. Resident Evening Round

The resident will take an evening round along with JC’s and put notes along with the respective unit. After the rounds are over, he shall inform the consultants regarding the status of the patients under his care

20. Morning Rounds

The morning and afternoon rounds will be taken with the consultants.

21. Documentation :

All records, investigations, orders, pertaining to patient care must be entered into the Hospital EMR : TRIOTREE. Detailed training of the same would be given to every resident on admission.

- Verbal and hand written orders will not be valid / executed.
- All residents will be given individual Log-in Ids which are unique. Patient confidentiality must be followed at all times.

III) WARD ROUNDS

1. Morning Rounds

Daily morning rounds to be taken with consultant. All patients to be seen and appropriate notes entered into the case paper.

2. Post Op Rounds to be taken with consultants.

3. Evening Rounds

Daily evening rounds to be taken by JC/ Fellows with all unit residents. After the rounds are done, report to the respective consultant should be sent by Whatsapp.

4. Sunday Rounds

Sunday morning rounds to be taken by JC’s & residents before 10.00 a.m. and then report to be sent to the Consultant by Whatsapp. No resident will leave the campus on Sunday before taking rounds and finishing ward work. Trauma consultant on call will take round of E-ward & critical patients.

Use of mobile phones during ward rounds is not permitted.

IV) OPD

1. Time

The Residents will finish ward work and come to the OPD sharp at 9.30 a.m. The residents will stay in the OPD till all patients have been attended to. If the OPD continues till 3.15 pm then he shall take permission of the respective consultants and attend the Clinic.

‘रूग्णसेवा हीच ईश्वरसेवा’

‘SERVING PATIENTS IS SERVING GOD’

2. OPD Patients

All cases coming to the OPD must be shown to the consultant. No resident will see patients on his own. No patients will be disposed without meeting the consultants.

No OPD Patients will be seen in the casualty.

3. Dressing Room

All routine dressings will be done in the dressing room and not in the casualty.

To inform OPD receptionist after the dressing is done for recovery of charges.

4. X-ray Orders

Patients should be given digital X-ray orders for the next visit during his present visit to facilitate follow-up. X-ray form must clearly mention the part to be X-rayed, diagnosis and signed by the resident.
